### Job Description:

We are currently in search of a responsible and dedicated Diagnostic Radiographer to join our team. The selected candidate will carry out oral and maxillofacial scans utilizing our advanced CBCT machine, including OPG, CEPH (2D), and CBCT (3D) scans. The role also encompasses processing, report creation, dentist support, and upkeeping the clinical aspects of our imaging services.

### Responsibilities:

- Provide high-quality radiographic imaging services for oral and maxillofacial patients.
- Uphold high-quality patient care standards.
- Ensure smooth operation and maintenance of equipment.
- Adhere to all standard operating procedures, protocols, and guidelines.
- Maintain accurate patient records and generate reports on-time.
- Respond to dentists' queries regarding images and report any issues.
- Promptly report any radiation incidents and assist in subsequent investigations.
- Assist in new staff training and liaise with other branches for clinical matters.
- Help with patient appointments: scheduling, confirmation and rescheduling, as needed.

### Qualifications:

- A valid license as a Diagnostic Radiographer in Hong Kong.
- Prior experience is not required (we provide comprehensive training).
- Experience with CBCT machines and with Dental Imaging – an advantage.
- Excellent command of English and Cantonese, both written and spoken.
- Proficiency in Microsoft Office – an advantage.

- Demonstrable organizational skills and the capacity to multitask.
- Strong communication and interpersonal skills.
- A professional appearance and a positive attitude.

**What We Offer:**

- A competitive salary complemented by an attractive benefits package.
- Opportunities for professional growth and development within our expanding network, including potential overseas relocation.
- A supportive work environment where your contributions are acknowledged and appreciated.

**Expected Start Date:**

Immediate
