## **MESSAGE FROM CHAIRMAN**

Dear members,

We have our ASM/AGM successfully held on 18 August with ~ 90 registrants and around 60 of them joined our annual dinner.

For AGM this year we have focus on constitution amendments that clearly define the criteria for membership. We also change the amount of annual fee from a fixed amount of HK\$150 to a range of zero up to HK\$500, which will give more flexibility.

For Professional Indemnity Insurance, as some members reflect that HA already had a certain coverage, we ask the Insurer to give us more options by giving us another plan which may reduce the duplication of coverage.

We will celebrate our World Radiography Day (WRD) together with the PolyU students this year. Student Ambassador of Radiography (SAR) is a student organization that arranges all the ac-

tivities and we will again promote the understanding of radiography to Public through these activities. A poster of RD designed by ISRRT and some labels will be distributed to the radiographers.

The upcoming mega event of HKRRTC is confirmed to be hosted in Academy of Medicine on mid June 2019. You are invited to submit result of studies or any specific information that can improve our knowledge. The theme this year is "Evolving Profession in the Digital World".

Thanks for continuous support and your comments are always welcomed.

*Edward Wong*

### 3<sup>RD</sup> RCEP - CT CONTRAST MEDIUM

A RECP was held on 24 Jul on the topic "CT Contrast Medium Pharmacokinetics and Protocol Optimization". Dr Thomas Wels had shared a lot of valuable ideas on the strategies for optimizing contrast dose in CT scan. About 100 participants had joined the event.

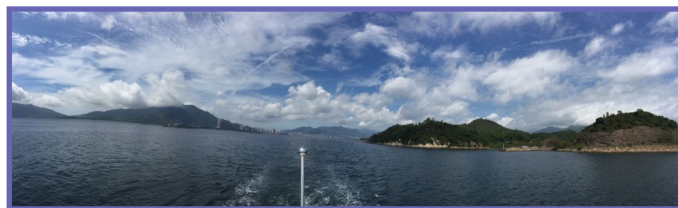

## Past Activities

### FUTSAL FRIENDLY MATCH - SUMMER FUN @ POLYU 2018

A football team formed with members had joined the football competition organized by HKPU in this summer. The team had beat 5 other teams and won championship in the event. Let's show our congratulations to them once more.

### ECOTOUR (6 MAY)

6 May 2018 was a good day that about 40 members and their families joined the eco-tour. Wonderful time was shared for the marvelous wildlife and scenic view at Tap Mun and Hoi Ha (塔門&海下).

## CELEBRATING THE WORLD RADIOGRAPHY DAY

It is 8 Nov every year the World Radiography Day (WRD) when Prof. Wilhelm Conrad Röntgen discovered X-ray at his laboratory on the same day in 1895. This year we have the theme from ISSRT "Precision & Compassion" for the WRD. A group of PolyU students also prepared

some publicity campaigns at the PolyU on this day. Let's celebrate and join the activities on the WRD.

## What's New

### ARE YOU PREPARED FOR THE EVEVOLVING WORLD?

The field Radiography nowadays is completely different from 1895 when Prof. Röntgen discovered X-Ray. There were evolutionary advancement on imaging technology: Digital Subtraction technology, sophisticated algorithm for CT scan, application of nuclear magnetic resonance to the imaging world, increasing the power of X-ray for removing neoplastic tissue as well as introduction of various pharmaceuticals for imaging and therapeutic purposes. All these had bought new pictures to the profession and also new roles to Radiographers and Radiation Therapists. In this rapidly changing world, the technology-based profession is also changing rapidly. We, the professionals, need to surf with the wave of technology. In the new year, we will connect with other professional bodies all over the world and see what would be the way the profession is directing to and how professionals work with new roles.

## ASM & AGM 2018

The ASM & AGM of this year was successfully held on 18 Aug. The amendment of HKRA constitution was passed by members in AGM. The major changes include a more flexible arrangement on membership fee and also the pre-requisite for joining the HKRA as member. Details of the changes had been delivered to members by email before AGM.

## What's New

### NEWS FOR PROFESSIONAL INDEMNITY INSURANCE

With feedback from members, HKRA had negotiated with insurance agency for new option of Professional Indemnity Insurance for HKRA members. The tailor-made proposal for radiographers will offer a limit of liability of HKD 1,000,000 for any one claim and in aggregate inclusive of legal cost and expenses. You may contact the agents for enquiring the details.
