**The Hong Kong Radiographers' Association**

**Chairman's Message**

The success of healthcare services depends on the supply of health care professionals. The Aging of our population and the demand for better healthcare poses high pressure to the local service providers, both public and private. Careful planning of tertiary education on Radiographers and Radiation Therapists are essential to maintain sufficient manpower. From our knowledge, the HKSAR government has appointed a Consultancy Organization to provide long term projections of the service requirement of different healthcare professionals. For short term analysis, Hospital Authority will provide information annually. For private sectors, PolyU has completed ad hoc studies. When combining the results of these studies, the picture seems to be clear and comprehensive. However, we see a number of missing concerns: "Level of Service Provision / Early Retirement / Part-time Radiographers" to name but a few and we hope to focus or address the issue via Questionnaires.

*Edward Wong*

**New Member Recruitment Promotion**

- Join as new members, Annual fee is just HK\$150 (HKART member HK\$60)
- Join as new members in 2014 with Application fee waived (HK\$100)
- Join as Guest in HKRA website for updated information from HKRA (free) and enjoy our CPD recording platform

# Education & Events

## Professional Collaboration

A memorandum of understanding (MOU) has recently been signed between the Canadian Association of Medical Radiation Technologists (CAMRT) and HKRA, whereby the Journal of Medical Imaging and Radiation Sciences (JMIRS) will become one of the official journals of HKRA.

The goal of this partnership is to provide HKRA members with online access to JMIRS and to expand the scope of the dedicated readers and authors. Also, JMIRS will consider annual publication of HKRA's meeting abstracts and supplements.

More details to come...please visit our [website](#) regularly for update.

## Sponsorship for Overseas Conference Presentation

HKRA encourage members to actively participate in research and improvement projects of their work. However, presenting their projects or research papers in overseas conferences would require costly traveling expenses. The conference sponsorship scheme has recently been reviewed to allocate more funding for our members in such activities. Members are welcome to apply for the sponsorship from the Association by submitting the application form, which can be downloaded from our [website](#).

JOURNAL OF MEDICAL IMAGING  
AND RADIATION SCIENCES

## Important Conference in 2014

- ISRRT - Helsinki, Finland (June, 2014)
- 廣東省醫學會第十三次放射醫學學術會議 (July, 2014)
- 1st East Asia Radiographers' Conference & 2nd Radiation Therapy Symposium - Malaysia (Aug, 2014)
- CSIT - China (September, 2014)
- 30JCRT and 21EACRT - Japan (September, 2014)
- 澳門放射師學術年會 2014 (October, 2014)
- KCR - Seoul, Korea (October, 2014)
- RSNA - Chicago, USA (December, 2014)

## Annual Scientific Meeting 2014 "Radiation Dose Reduction"

We have a successful ASM this year with more than 150 participants

Introducing radiation safety culture among Interventional X-ray staff - [Mr. Mikael Wanland](#)

Radiation Dose Reduction in Interventional Suites: ClarityIQ Technology - [Ms. Jiang Xianxian](#)

Radiation Dose Optimization in General Radiography - [Mr. Lee Chung Yiu](#)

Radiation Dose Optimization in Cardiac CT: A technical review - [Mr. Cheng Wai Kwong](#)

Driving Smart with advanced CT Technology - [Mr. Gilbert Lee](#)

### A New Face Mr. Simon Wong

It is my pleasure to join the Hong Kong Radiographers' Association family to be one of the Welfare Secretary. In fact, it was a great sense of loss when facing the news of the death of my previous colleague "Welfare Secretary Mr. Murphy Chiu" few months ago since he was a young and energetic radiation therapist but his exemplary spirit would be within our heart forever.

I am now working in department of Clinical Oncology, Prince of Wales hospital as Senior Radiation Therapist in-charge RT dosimetry section and RT Day ward. I am also a committee member of Training and Development (T&D) Sub-committee of HA to coordinate workshops, scientific meetings and commission trainings to RT colleagues. It is my honor to co-operate with the expertise in the field ; to organize and coordinate local conferences and recreational activities and also to attend international conferences to meet professions and different association committee members to enhance the connection and relation with them for promoting cultural, technical, clinical experience sharing and academic exchange.

By the way, I just can't wait to work with EXCO members and I am sure that I can learn a lot of things from all of them in HKRA.

## ISRRT 議會感想

This is the first time for me to represent Hong Kong to attend the ISRRT Council meeting in Helsinki, 2014. Being the election year, a number of important posts are to be competed by figure heads of our profession. More than sixty Council representatives vote for their supported nominees and the whole process takes two days to finish)

### Results:

President: Dr Fozy Peer

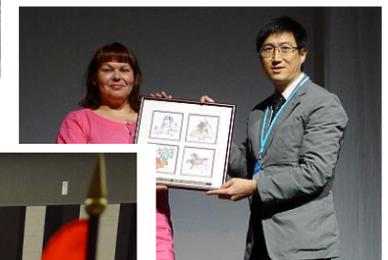

Director of Education: Dr Maria Law

Vice-President, Americas: Mr Terry Ell

Vice-President, Europe/Africa:  
Mr Philippe Gerson

Vice-President, Asia/Australasia:  
Dr Napapong

Regional Director, Asia/Australasia:  
Ms Tan Chek Wee

For more results, please visit ISRRT website [www.isrrt.org](http://www.isrrt.org)

# Registration Statistics

Category	No. of registrants	
	Diagnostic Radiographers	Therapeutic Radiographers
Part I	1228	259
Part II	242	59
Part III	90	N/A
Part IV	92	0
<b>Total</b>	<b>1652</b>	<b>318</b>

# Department Visits

We are going to organize department visits to some hospitals to meet our radiographers and radiation therapists. The visit aims to introduce HKRA, gathering members and/or non-members' view from hot topics in our profession, taking photos and driving membership. We are looking forward to seeing you later.....

# New Look of HKRA Membership Card

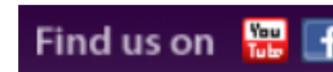

New membership cards were sent out early this year. More features of the new card like QR code and bar code were included for members to keep in touch with the association

## 熱釋光劑量計使用須知

### 正確佩戴劑量計(TLD)

劑量計(TLD)可佩戴於身體中心附近，並把附有個人姓名的一面，貼向身體。

也請宣傳提醒我們的同事正確佩戴 TLD。

資料來源: 衛生署放射衛生部, 輻射監察服務, 用戶指引

請勿破壞或試圖打開劑量計。
